1 AN ACT TO: Eliminate testing products on animals in New York state

2
3 The People of the State of New York, represented in the
4 Senate and Assembly do enact as follows:
5

6 **Purpose:**

7 To stop the testing of products in New York state.
8

9 **Summary of provisions**

10 All New York state companies must follow the guidelines to stop testing on animals.

11 A choice will be granted whether or not to test on prisoners who have been sentenced to life in prison or any other
12 choice as long as there are no animals involved.

13 All companies that include, NARS, Victoria Secret, Maybelline... (ETC) will be required to follow the guidelines of New
14 York State to not test on animals.

15 If companies decide to test on prisoners the products will be dispersed among different prisons in New York State.
16

17 **Justification**

18 Products should stop being tested on animals. Testing on animals is cruel and killing the animals that have not done
19 anything to deserve this. Companies should stop testing their products on animals.

20 Animals are dying and if too many die that species becomes extinct. These products are being tested on many
21 species. If they all become extinct humans will start dying because we can't get our meat milk and eggs and things we
22 need to survive even some clothes are mad from animal and where will we get our clothing then? That's why this is a
23 good reason to start testing on prisoners.
24

25 **Fiscal implications**

26 This bill will save companies and New York state money. New York State funds companies and then the companies go
27 and use the funds to do cruel things. This bill will save New York State money by not having to pay to get their
28 products tested. Getting products tested on prisoners will also teach the prisoners a lesson since there in there for
29 life.
30

31 **Effective data**

32 This bill will go into effect approximately two years after this passage.
